

## New Boat at Shipwreck Corner

Good News! Through the efforts of Pam Trautman, the Sewer Sisters have secured a new derelict boat for Shipwreck Corner. It is a wooden boat built by John Lister who once had a boat building business near Puget Marina, starting in 1938. The boat was donated to us by Lanny and Linda Carpenter. It has been *resting* in their woods for quite a while – so it's just what we need. Lanny brought the boat on his flatbed to the corner on May 12<sup>th</sup>. We can now once again legitimately call it Shipwreck Corner.

At the March work party a decision was made to remove the previous boat since it had become exceptionally dilapidated, with many exposed nails. Thanks to David and Kim Phillips for trucking it away! Dave Phillips will also help construct a cradle for the new boat to minimize the decay that would result from its resting directly on the ground.
